

My Vision for Students

I believe that every student will learn and achieve. My vision is for all students to be excited and passionate about learning. The challenge is for us to provide them a variety of learning experiences on the basis of their individual needs, strengths, readiness, interests and learning profile. If students will be shaped with multi-option assignments, they will be able to use their strength to demonstrate their knowledge. This will also provide them with opportunities to develop their passions while exploring different career options. In these ways, we can do even more to help them become independent with hopes that we can find love, laughter and happiness in the process.

I am confident that we can continue to make a difference! Through a close and collegial partnership that's coated with a touch of love and compassion, we can continue to provide a learning environment that is rich in the spirit of family-like affection wherein students feel at home while in school.
